## ARBOR DAY PLANTING

The City and its Shade Tree Commission will host the annual Arbor Day planting on Saturday, September 28, at 10AM near the front entrance of Broadview Center. All are welcome to attend. Trees are important in a healthy community for several reasons: They reduce erosion of our topsoil by wind and water; they cut heating and cooling costs, moderate the temperature, clean the air, produce oxygen, and provide habitat for wildlife. They are also a renewable resource giving us paper, wood for homes, fuel for fires, and countless other wood products. Trees are a known source of joy and spiritual renewal. The City has been a “Tree City USA” for many years due to our commitment to the regular planting of trees.
