- **DITCH MAINTENANCE WORK**

The City will be performing ditch maintenance in some areas (mostly along Avery Road). This will include the removal of accumulated sediment per original ditch design to maintain the depth and slope required to convey stormwater runoff. Residents can help maintain a well-functioning drainage system by mowing vegetation in ditches and keeping all debris (including leaves and grass clippings) out of ditches and storm drains. Keep in mind that it is illegal to intentionally dump leaves, grass clippings, litter and other debris into ditches. Open ditches with maintained grass are preferred in order to provide erosion protection as well as a natural filtration system. Tree saplings and overgrowth are only removed from ditch banks by stormwater crews when warranted for access due to maintenance needs, or if drainage flow is obstructed. Any routine trimming of grass and vegetation in any ditch is the responsibility of the property owner. The City will also inspect drive pipes to ensure they are in good working order. If there are issues with the drive pipe the City will notify the resident. If you have any questions or concerns please contact the City of Broadview Heights Service Department at 440-717-4022.

- **HYDRANT FLUSHING**

The Fire Department will be flushing water mains and fire hydrants through June 10. This work is being done as part of the Fire Department’s ongoing preventative maintenance program. Signs will be posted at the end of each street and at the entranceway to developments the day before flushing begins. While landscaping efforts are appreciated, please do not obstruct the hydrants with long grasses and/or shrubs. [Click here](#) for more information about hydrant flushing and dirty water.
