## **IN CASE YOU MISSED IT...**

- **SMOKE DETECTORS** are of tremendous importance in minimizing death, injuries and fire damage. Unfortunately, millions of homes do not have smoke detectors or the smoke detectors are outdated. It is recommended that after ten (10) years of service your smoke detectors be replaced. The Broadview Heights Fire Department strongly recommends photoelectric smoke detectors and the installation of a smoke detector in each and every room of your house, with the exception of the kitchen, bathroom and garage areas. Keep those who are dear to you safe. Remember, if you already have a smoke detector now is the time to check those batteries. Here are some General guidelines for smoke alarms and their placement:
  - Test your smoke detector monthly - make the first Tuesday of the month test day.
  - Change the batteries in you smoke detectors twice yearly. (Change Your Clock, Change Your Battery)
  - Have a home fire escape plan and practice it - tonight.
  - Sleep with your bedroom doors closed.

- Have a working smoke detector on every level of your home and inside all occupied sleeping areas
- For more information about the Fire Department's recommendation, click here to visit their webpage.
